**Duos Technologies Awarded Multi-Location Contract for Security at Correctional Facilities  
Project will Upgrade Video Security Systems at Two Jails in Monroe County, FL**

**JACKSONVILLE FL, September 17, 2008** – The Monroe County Sheriff's Office (MCSO) has awarded a contract to **Duos Technologies, Inc.** in response to its recent Request for Proposal (RFP) for a video security system upgrade for the Bureau of Corrections. Duos will deploy video-based security systems at MCSO incarceration facilities in Key West and Plantation Key, Florida operated by MCSO.

The scope of work for the Key West Facility includes the installation of IP day/night megapixel cameras enclosed in high-security, tamperproof enclosures, as well as the incorporation of over 40 existing CCTV cameras already operating at the facility. Work at the Plantation Key facility includes the relocation of existing cameras and the addition of day/night IP megapixel cameras enclosed in high security tamperproof enclosures.

Both security systems are designed to terminate at custom-designed head end systems that feature **rvspro™** servers running Duos' **PRAESIDIUM®** video software platform. The systems include video storage for up to 30 days with options to extend the recording length to one year.

The accepted bid includes installation, project management, and training as well as a multi-year maintenance and service contract. The total contract excluding maintenance and service exceeds \$280,000 and will be executed in the fourth quarter of 2008.

**Duos Technologies Inc.**, headquartered in Jacksonville, Florida, provides a broad range of technology solutions with an emphasis on Homeland Security. Its systems are based on its proprietary object detection and behavioral analysis software, managed by the company's multi-layer control platform. This allows seamless integration of a myriad of sensing technologies into a unified command and control interface. Duos' comprehensive automated systems play a meaningful role in the transportation, petrochemical, and healthcare industries.
