U.S. SENATOR BILL NELSON VISITS DUOS TECHNOLOGIES

JACKSONVILLE, FL, October 22, 2007 – “The future of homeland security is technology,” declared U.S. Senator Bill Nelson as he met with the media today at the offices of Duos Technologies, Inc., a Jacksonville-based provider of sophisticated technology solutions with an emphasis on homeland security.

The Senator met with the press after receiving a technology briefing from Duos on their current capabilities, and previewing sophisticated technologies under development to mitigate emerging threats to transportation and critical infrastructure. He was impressed with what he saw, citing in particular Duos’ solution for addressing rail freight security issues and a pilot surveillance project at Jacksonville International Airport. Tom Murta, director of Public Safety and Environment from CSX Corporation, which employs several Duos Technologies applications, also attended the demonstration. The Senator believes that this type of technology will become a worldwide standard.

“His visit afforded us the opportunity to exchange information on cutting edge technologies and discuss the advanced solutions deployed by Duos, and how they relate to the security needs of our country,” said Gianni B. Arcaini, Chairman and CEO of Duos. “Our research and development team continues to stay ahead of the curve in bringing groundbreaking technology to bear in the war on terror.”

News coverage of the Senator’s visit to Duos was broadcast on Jacksonville’s CBS affiliate, WTEV, and can be viewed on their Internet site (<http://www.cbs47.com/mediacenter/local.aspx?videoid=16018@video.cbs47.com&navCatId=98> , “Local company fighting the war on terror”).

Duos Technologies’ systems are based on its proprietary object detection and behavioral analysis software, managed by the company’s multi-layer control platform, allowing seamless integration of a myriad of sensing technologies into a unified command and control interface. Its comprehensive automated systems also play a meaningful role in the transportation, petrochemical, and healthcare industries. **Duos Technologies International, Inc.**, is its global arm.
