

FOR IMMEDIATE RELEASE

**DUOS TECHNOLOGIES WINS MAJOR RAIL YARD SECURITY CONTRACT**

**JACKSONVILLE, FL, October 1, 2007** – Duos Technologies Inc. (**duostech**) announced today that it has been awarded a contract in excess of \$600,000, plus options by one of the nation’s leading rail transportation companies to implement its intelligent video security solutions at a sensitive rail yard in the northeast U.S. corridor.

The award is the latest in a series of strategic contracts as the major U.S. rail lines have increasingly turned to Duos for customized security solutions. “We have the ability to adapt our technology, our processes, and our delivery to meet exacting customer needs, and this is the hallmark of our company’s success,” stated Gianni Arcaini, Chairman and CEO of Duos. “We developed a solution for the rail yard based on the specific needs of this client, at this facility, rather than simply deploying a general vigilance approach.”

**Duos Technologies Inc.**, headquartered in Jacksonville, Florida, provides a broad range of sophisticated technology solutions with an emphasis on Homeland Security. Its systems are based on its proprietary object detection and behavioral analysis software, managed by the company’s multi-layer control platform, allowing seamless integration of a myriad of sensing technologies into a unified command and control interface. Its comprehensive automated systems also play a meaningful role in the transportation, petrochemical, and healthcare industries. **Duos Technologies International, Inc.**, is its global arm. Due to the nature of its systems and customer confidentiality Duos has elected to omit sensitive material including specific’s on location and technology from it’s press releases.
