

FOR IMMEDIATE RELEASE

U.S. SENATOR BILL NELSON TO VISIT DUOS TECHNOLOGIES HEADQUARTERS IN JACKSONVILLE ON MONDAY, OCTOBER 22, 2007

JACKSONVILLE, FL, October 19, 2007 – U.S. Senator Bill Nelson has announced his visit to Duos Technologies, Inc. (**duostech**) on Monday, October 22nd, to meet with senior management and to be briefed on security related technologies developed and deployed by Duos. Senator Nelson will be accompanied by members of his staff and representatives of the media.

Duos Technologies will present to the Senator a live demonstration on their proprietary artificial intelligence based solutions suite and will connect live to monitored facilities throughout the continental United States.

“We are excited to welcome Senator Nelson, whose involvement with the Senate intelligence, Foreign Relations, and Armed Services Committees offers him a unique perspective on the critical security issues facing our nation,” said Gianni B. Arcaini, Chairman and CEO of **duostech**, “We are very impressed with his interest in obtaining firsthand knowledge of sophisticated capabilities in the fight against crime and terrorism.”

Senator Nelson’s visit is scheduled for 10:30 AM at the offices of Duos Technologies, 6622 Southpoint Dr. South, Suite 310, Jacksonville, FL. 32216.
