# duos in Vertical Markets

Duos Technologies provides a broad range of security solutions that deploy intelligent video technology on an open platform. Its customized solutions integrate a myriad of video and sensor technologies to provide a comprehensive command and control solution that addresses both **operational** and **security**-driven management challenges. All component technologies are managed at a single browser based network user interface. Duos also offers rapid-deployment surveillance platforms that provide flexible, focused surveillance capability wherever it is required.

## RAIL OPERATIONS
