

alis[®] Automated Logistics Information System

Fast Track Your Distribution Centers Through Automation, Technology, and Integration

Automate driver authentication

*Deploy technology to speed in/out process
and integrate data to enable queries*

duostech
connected intelligence

Overview

The **alis**[®] system automates the distribution center and gatehouse operations in order to leverage technology as a force multiplier to achieve economies of scale.

Duos Technologies replaces traditional gatehouse operations with turn-key deployment of an intelligent, multi-sensor system that eliminates manual processes and uses **centraco**[®] to consolidate data query and storage.

Eyes On Hands Off

>>> fast track your distribution centers through **automation, technology, & integration**

How it Works

01

Inbound

- License Plate Recognition (LPR) of front / rear license plate
- Optical Character Recognition (OCR*) of trailer / container
- Video capture of the top and both sides of the trailer / container

02

Kiosk

- Scan, capture, and validate driver information, provides driver instructions on multi-lingual touch-screen
- Confirm and transmit information including OCR* / LPR and waybill / BOL
- Distribution of pin-lock keys or RFID tags

03

Outbound

- Validate OCR* / LPR of the front and rear license plates
- Confirm Trailer Seal / Load Verification
- Verify presence, empty or not empty trailer*
- Ensure CTPAT / CFATS compliance if required

04

centraco[®]

- User friendly interface
- Easy Integration with Third Party API's
- Provide a transactional database for query and storage
- Automate & streamline WMS / TMS / YMS process

* A.I. enhanced module

System Benefits

Lower Costs Through Technology

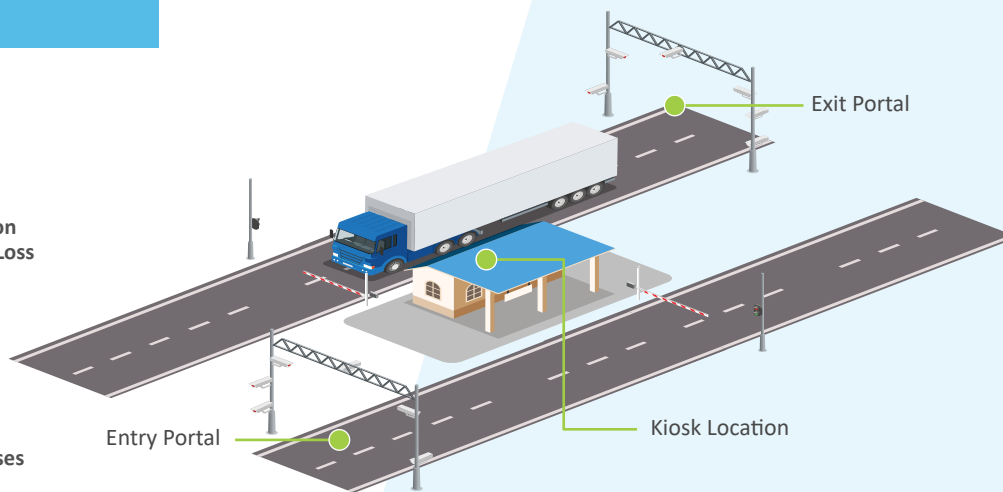

Increase Transaction Accuracy & Prevent Loss

Eliminate Bottlenecks & Enhance Tracking

Amplify Speed & Efficiency in Processes
