

# alis<sup>®</sup> Automated Logistics Information System

## **Fast Track** Your Distribution Centers Through Automation, Technology, and Integration

*Automate driver authentication*

*Expedite check in / check out process and  
integrate data to enable queries*

**duostech**  
connected intelligence

## Overview

The **alis<sup>®</sup>** system automates the distribution center and gatehouse operations in order to leverage technology as a force multiplier to achieve economies of scale.

Duos Technologies replaces traditional gatehouse operations with turn-key deployment of an intelligent, multi-sensor system that eliminates manual processes and uses **centraco<sup>®</sup>** to consolidate data query and storage.

## Eyes On Hands Off

>>> fast track your distribution centers through **automation, technology, & integration**

## How it Works

### 01 Inbound

- License Plate Recognition (LPR) of front / rear license plate
- Optical Character Recognition (OCR\*) of trailer / container
- Video capture of the top and both sides of the trailer / container

### 02 Kiosk

- Scan, capture, and validate driver information, provides driver instructions on multi-lingual touch-screen
- Confirm and transmit information including OCR\* / LPR and waybill / BOL
- Distribution of pin-lock keys or RFID tags

### 03 Outbound

- Validate OCR\* / LPR of the front and rear license plates
- Confirm Trailer Seal / Load Verification
- Verify presence, empty or not empty trailer\*
- Ensure CTPAT / CFATS compliance if required

### 04 centraco<sup>®</sup>

- User friendly interface
- Easy Integration with Third Party API's
- Provide a transactional database for query and storage
- Automate & streamline WMS / TMS / YMS process

\* A.I. enhanced module

## System Benefits

Lower Costs Through Technology

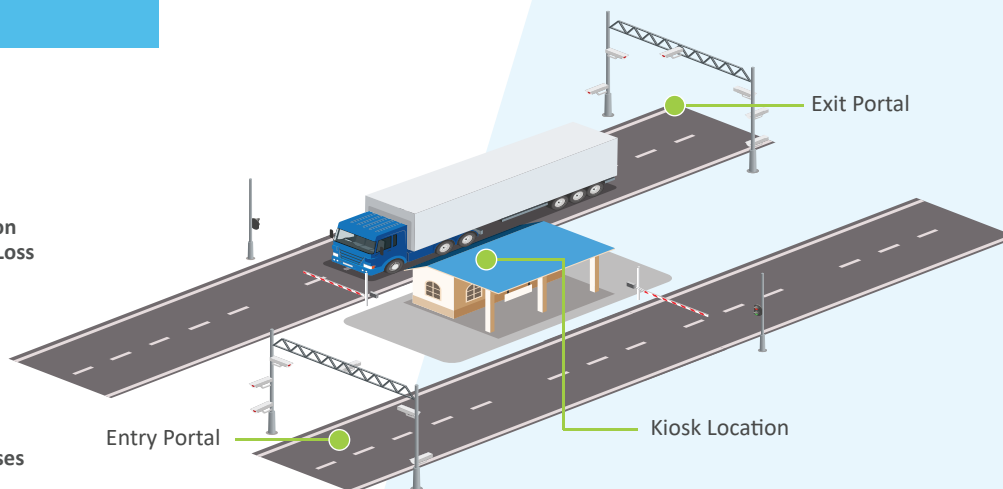

Increase Transaction Accuracy & Prevent Loss

Eliminate Bottlenecks & Enhance Tracking

Amplify Speed & Efficiency in Processes
