

Message from the CEO

Welcome to Duos Technologies!

We deploy cutting-edge technologies that transform precision railroading, logistics, and intermodal transportation operations for our customers.

Our Rail Inspection Portal (**rip**®) provides freight and transit railroad customers the ability to scan more than 20 inspection points on a train moving at high speeds. This cutting-edge technology has the potential to transform the rail industry in the coming years increasing safety, efficiency, and costs.

Our Automated Logistics Information System (**alis**®) automates the gatehouse process in large logistics and intermodal operations that significantly improves accountability, throughput, and security of incoming and outgoing truck shipments.

Duos is able to deliver these cutting-edge solutions because of our incredible talented team. Whether we are installing a solution in the winter cold of Canada, the spring rains of the American Heartland, or the sweltering heat of Mexico in summer; our culture of safety, teamwork, trust, and innovation to support our Customer motivates us to excel.

Duos Technologies is small, fast, and agile while maintaining the highest standards as a publicly traded company on the NASDAQ. We very much appreciate the excellent support we receive from our Board of Directors and Shareholders as we seek to grow our company's value.

Thank you for visiting our website and we hope to hear from you soon.

Respectfully,

A handwritten signature in blue ink that reads "Charles Ferry". The signature is fluid and cursive, written in a professional style.
